

## Data Collection and Preprocessing Phase

Date	10 July 2024
Team ID	740004
Project Title	Rising Waters:Machine Learning Approch To Flood Prediction
Maximum Marks	6 Marks

## Data Exploration and Preprocessing Template

Identifies data sources, assesses quality issues like missing values and duplicates, and implements resolution plans to ensure accurate and reliable analysis.

Section	Description																																																																																																																								
Data Overview	Dimensions 115rows x 9columns
